

Position: Investment Actuary
Company: Top Tier Life Insurance Firm [Name withheld by Recruiter]
Location: Singapore

Company Summary

The client is a top tier life insurance firm with an established presence in Asia.

Job Responsibilities

The successful incumbent will report to the Assistant Director, Actuarial Services, who is responsible for the investment strategies and performance of the participating and non-participating funds, as well as work with the Regional Head Office's Investment Actuary on setting up the strategic asset allocation and managing the asset liability matching of these funds. He / She will also work with the firm's fund managers on investment related matters and be responsible for monitoring fund performance whilst driving the quarterly Investment Committee meeting agenda for the Appointed Actuary.

Job Requirements

- Degree in Actuarial Science
- A member of an internationally recognized actuarial body at the Associate / Fellow level
- C.F.A. qualification is preferred
- At least 6 – 8 years of direct work experience with investment banks or investment consulting firms possessing a solid exposure in asset liability matching and strategic asset allocation plus tactical asset allocation
