

Position: Life Actuary
Company: One of the Region's Leading Insurance Firms
[Name withheld by Recruiter]
Location: Singapore

Company Summary

The client has a solid corporate history and is one of the region's leading insurance firms.

Job Responsibilities

As a prominent actuary, the successful incumbent will work closely with the Chief Actuary to steer the life, health and general insurance businesses. He / She will provide strategic input on how the businesses are run, and play a key role to develop them viably and sustainably. The areas he / she will cover include but are not limited to financial steering, MCEV calculations, financial reporting, asset liability management and product development, in addition to managing and developing when necessary junior team members.

Job Requirements

- Degree in Actuarial Science
- A Fellow of the U.K., U.S. or Australian professional bodies
- Minimum 3 years of work experience with exposure to the life business
- Strong communication and interpersonal skills coupled with excellent leadership skills

Application

To apply, please submit your detailed resume to **Matthew Sidgwick** of **Reed Insurance Singapore** at matthew.sidgwick@reedglobal.com or call **6602 9107** for a preliminary discussion.
